OVERVIEW

The Maine Health Data Organization (MHDO) is required by Maine law to maintain a useful, objective, reliable and comprehensive health information database that is used to improve the health of Maine citizens and to issue reports promoting public transparency of health care quality, costs, and outcomes. The MHDO makes data publicly available and accessible to the broadest extent, consistent with the laws protecting individual privacy and proprietary information. Acceptable uses of MHDO Data include, but are not limited to, study of health care costs, utilization, and outcomes; benchmarking; quality analysis; longitudinal research; other research; and administrative or planning purposes. **As a data submitter, you provide essential data for these efforts.**

The MHDO is implementing a submission system for the collection of Chapter 300 organizational data, which were previously collected manually via Chapter 630, *Uniform System for Reporting Baseline Information and Restructuring Occurrences for Maine Hospitals and Parent Entities*. As such, every multi-health system, parent, and hospital shall review and update their baseline organizational information annually via the new online MHDO Hospital Data Portal:

https://mhdo.maine.gov/hospital_portal/

MHDO Rule Chapter 300, *Uniform Reporting System for Hospital Financial Data* is available on the MHDO website: [Statutes and Rules](#)

This manual provides instructions for how to validate organization data through the MHDO's Hospital Data Portal.

HOW TO VALIDATE ORGANIZATION INFORMATION

The features and functionality for Organization Data in the MHDO Hospital Data Portal are consistent, no matter if you're a health system, parent, or hospital user. Practices affiliated or unaffiliated with a health system or hospital need to be individually reviewed, edited, verified, or removed.

IDENTIFYING RELATIONSHIPS AND REQUIRED ACTIONS

HOME

Upon logging into the Portal, a user will see the Welcome screen, with the "Organization Data" in the left navigation:

ORGANIZATION DATA

Clicking "Organization Data" will bring users to the main page that outlines the relationships of health systems with sub-systems, parent entities, hospitals, and/or practices. To distinguish the relationships among them, the list of entities is indented and a +/- sign appears next to an entity's name to expand or collapse any affiliated entities. By default, the structure is expanded to show all relationships, statuses, and the current year.

Organization Data

This table reflects the organizational structure of health systems and parent entities, including the relationships with sub-systems, hospitals, practices. **Please contact the [MHDO Help Desk](#) if you need to modify your organizations' hierarchical relationships.**

The status column indicates if action is required:

Since physicians can be employed or affiliated with multiple hospitals or practices, the MHDO Hospital Data Portal has a separate back-end repository that acts as the sole source of information to ensure that the same physician isn’t added multiple times but with different spellings of their name. **To this point, when a user edits “Physician Details” the updates won’t be immediately updated; rather, the modifications will be sent to the MHDO Help Desk for review, confirmation, and updates.**

The first step to adding a physician is to enter the unique 10-digit rendering NPI:

Add Physician

>> Maine Health > [Western Maine Health](#) > [Stephens Memorial Hospital](#)

Physician Details

NPI:

Since the MHDO Hospital Data Portal has a back-end repository that acts as the sole source of physician information, if a user enters an NPI that already exists, the physician will appear and the start and end dates, unique to that entity, may be added in the format mm/dd/yyyy.

Clicking “Bulk Import Physicians” allows multiple physicians to be added at once:
